Call us today

To discuss how we help you with:

- Cost effective Product range including Digital LCD /LED
- Customised Product
- Design Work undertaken supported with CAD
- On Site Services & installation work
- Posting
- Consultancy
- Low Carbon Foot print options

CVB's Ultra LED Illuminated Poster Cases offer a stylish, secure and effective way to display your promotional or advertising posters.

They are resistant to weather to enable installation inside or outside.

To prevent vandalism or theft of the poster they are lockable but offer quick and easy poster change to enable updating of the poster.

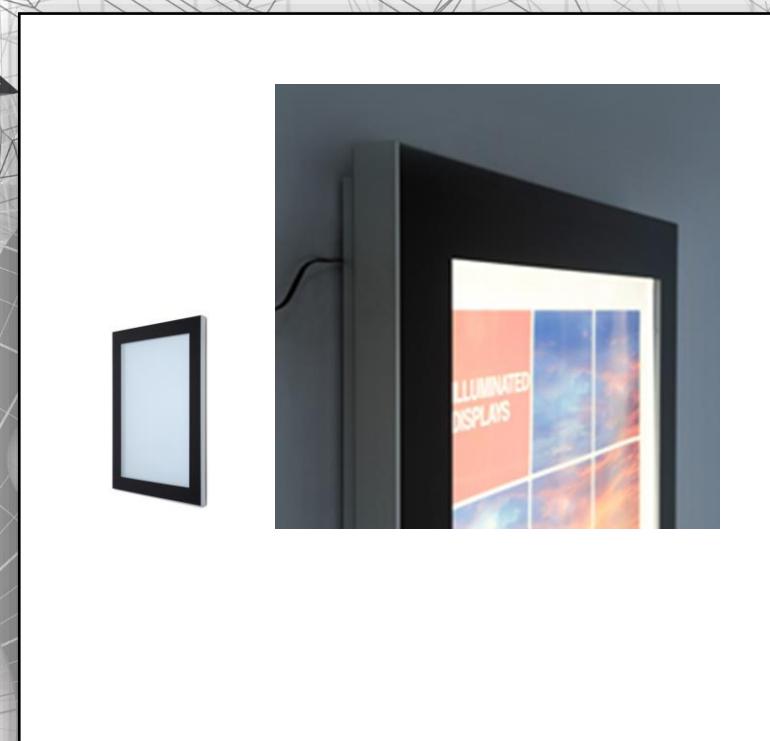

To suit your requirements they are available in a wide range of sizes from A1 (594x841mm) to 12000mm x 1800mm.

The Poster Cases provides a cost effective and reliable way of displaying your advertising or communications for years to come.

With a reliable uniform LED illumination our poster cases offer a very low maintenance and energy efficient solution. Carbon footprint is kept to an absolute minimum with effectively zero maintenance and 60% less electrical consumption compared to conventional illuminated poster cases.

To give you complete peace of mind CVB offer full customer support from customisation including branding and aesthetic finishes to frames.

Installation and extended warranty options available.
